LIQUID CONTAINMENT SPECIALISTS

HORIZONTAL & UNDER-SEAT CANS

PRODUCT CATALOGUE · 2026

Low-profile horizontal cans in 5, 10 and 20 litre, galvanised or stainless. They slide under a boat seat, into a locker or onto a machine frame where a NATO upright has nowhere to go.

ABOUT THIS CATALOGUE

MADE IN OUR OWN FACTORIES IN VIETNAM AND CHINA.

Fortitude21 is an industrial liquid containment manufacturer and wholesale supplier, managed from Singapore by JCDC Ventures Pte. Ltd. Its factories in Vietnam and China make jerry cans, fuel and water cans, chemical containers, pails, buckets and tins to one specification. It also supplies the closures and accessories, spill containment and drum handling equipment that go with them, sourced to that specification.

QUOTE THE PART NUMBER

Every code here is a Fortitude21 part number. Quote it with the quantity and we price that exact build. Where a product comes in several sizes, each size has its own code.

NAME THE CONTENTS

Fuel, drinking water and chemicals each need a different interior and different paperwork. Tell us what goes in and where it ships, and we confirm the build that suits it.

ASK FOR THE CERTIFICATE

UN approval is granted per design type, and the competent authority decides which plant it covers. Ask for the certificate number and the plant named on it for your order.
