ABOUT THIS CATALOGUE

MADE IN OUR OWN FACTORIES IN VIETNAM AND CHINA.

Fortitude21 is an industrial liquid containment manufacturer and wholesale supplier, managed from Singapore by JCDC Ventures Pte. Ltd. Its factories in Vietnam and China make jerry cans, fuel and water cans, chemical containers, pails, buckets and tins to one specification. It also supplies the closures and accessories, spill containment and drum handling equipment that go with them, sourced to that specification.

QUOTE THE PART NUMBER

Every code here is a Fortitude21 part number. Quote it with the quantity and we price that exact build. Where a product comes in several sizes, each size has its own code.

NAME THE CONTENTS

Fuel, drinking water and chemicals each need a different interior and different paperwork. Tell us what goes in and where it ships, and we confirm the build that suits it.

ASK FOR THE CERTIFICATE

UN approval is granted per design type, and the competent authority decides which plant it covers. Ask for the certificate number and the plant named on it for your order.

F21-NW-20

20L NATO STEEL WATER CAN

NATO-pattern pressed steel, finished and marked for water, in the blue many buyers choose for water and the geometry your carriers already take. Where blue also means kerosene, the WATER marking settles it.

SUPPLY	Made in our own factories in Vietnam and China, plant confirmed per order
CAPACITY	20 litres
MATERIAL	Pressed steel with potable-water interior specification
INTENDED CONTENTS	Potable water
FORM FACTOR	NATO pattern, three-handle
CLOSURE	Screw cap with gasket
