LIQUID CONTAINMENT SPECIALISTS

POURING & TRANSFER

PRODUCT CATALOGUE · 2026

Pouring spouts, taps, dispensing valves and the adapters that bring a drum or an IBC down to a can: the parts that move liquid from one container to the next.

ABOUT THIS CATALOGUE

SOURCED TO THE SAME SPECIFICATION AS THE CAN.

Fortitude21 is an industrial liquid containment manufacturer and wholesale supplier, managed from Singapore by JCDC Ventures Pte. Ltd. Its factories in Vietnam and China make jerry cans, fuel and water cans, chemical containers, pails, buckets and tins to one specification. It also supplies the closures and accessories, spill containment and drum handling equipment that go with them, sourced to that specification.

QUOTE THE PART NUMBER

Every code here is a Fortitude21 part number. Quote it with the quantity and we price that exact item.

MATCH THE FITMENT

Tell us the can, drum or IBC it has to fit, with the thread or neck size if you have it. We confirm the fit before you order.

ASK FOR THE DOCUMENTS

We send the test and compliance documents we hold for the model you order, not a general claim.

CONTENTS

01 **POURING SPOUTS & NOZZLES** — F21-AS · Rigid, flexible and auto-shutoff spouts across the range. — ACCESSORY · POURING — 03

02 **TAPS & DISPENSING VALVES** — F21-AT · Taps and breather valves. — ACCESSORY · DISPENSING — 03

03 **DRUM & IBC ADAPTERS** — F21-AD · The fitting between bulk and portable. — ACCESSORY · TRANSFER — 04

Dimensions are L × W × H unless a table says otherwise. Dimensions and weights are nominal; weights are empty. Lead time: Approximately one month for a standard production run; samples in 7–15 days. Confirmed against your specification at quotation. Minimum order quantity and price are quoted on enquiry. Test and compliance documents are supplied for the design and run you order; we send the documents we hold, not a claim. Every product links to its page on fortitude21.com, which carries the current figures. This edition: 20 November 2026.

10 POURING & TRANSFER

Pouring spouts, taps, dispensing valves and the adapters that bring a drum or an IBC down to a can: the parts that move liquid from one container to the next.

F21-AS

POURING SPOUTS & NOZZLES

Rigid, flexible and auto-shutoff spouts across the range. A spout is bought to reach an awkward filler neck without spilling.

SUPPLY	Sourced to our specification
TYPES	Rigid European pattern, flexible long-nose, auto-shutoff
FITMENT	Matched to the neck of the can it is sold against
MATERIAL	Polyethylene with sealing gasket; metal lever where fitted
SUPPLIED	Loose, bundled with cans, or as counter stock
VENTED	Vented and non-vented options
QUOTED ON ENQUIRY	Minimum order quantity, Price

Before you order: Spout material compatibility depends on the contents. A spout specified for water is not specified for solvent. Confirm the application before ordering.

Current figures and documents: fortitude21.com/product-pouring-spouts

F21-AT

TAPS & DISPENSING VALVES

Taps and breather valves. You draw from a can with a tap instead of lifting it, which is a different job.

SUPPLY	Sourced to our specification
TAP MATERIALS	Brass, stainless steel and polymer
BREATHER VALVES	Fitted to balance pressure while drawing
FITMENT	Matched to the tapped can bodies in our range
THREAD	To the can it is sold against
QUOTED ON ENQUIRY	Minimum order quantity, Price

Before you order: Tap material must be compatible with the contents. Brass is unsuitable for diesel exhaust fluid, which corrodes copper alloys. Confirm the application.

Current figures and documents: fortitude21.com/product-taps-dispensing-valves

F21-AD

DRUM & IBC ADAPTERS

The fitting between bulk and portable. Most decanting happens from a drum or an IBC into a can, and doing it without an adapter is how product ends up on the floor.

SUPPLY	Sourced to our specification
TYPES	Drum bung adapters, IBC outlet couplings, transfer nozzles
THREADS	Common drum and IBC thread patterns
MATERIAL	Polymer and stainless options
FITMENT	Sized to the cans in our range
QUOTED ON ENQUIRY	Minimum order quantity, Price

Before you order: Adapter material and thread must match both the bulk container and the contents. Confirm both before ordering.

Current figures and documents: fortitude21.com/product-drum-ibc-adapters

ENQUIRE NOW

TELL US THE CAN. WE'LL MATCH THE FITTING.

Send the part numbers and quantities, what goes in the container, and the destination country or port. We will come back with a specification sheet and a quotation, and a number rather than a brochure figure.
